

45 Degrees of Revolutions...

...Thinking outside the box, Cablofil creates the perfect connection for your junction boxes.

With its unique Plexo connectors, Cablofil brings you a unique solution to quickly and directly install the junction boxes on any of its cable trays.

SAFE

good impact resistance (IK07)
self extinguishing (650°C)

FAST

screwless fixing
45° to clip on the cable tray

STRONG

premium quality plastic (Plexo box IP55 maintained)
securely fastened

In addition to Cablofil cable tray system, the junction boxes are as easy to handle and quick to install. Available in 2 sizes, IBP 80 and IBP 105, these connectors have been designed to save time and money while ensuring a perfect installation to the end users.
